Additional own questions

16. In this course, the use of AI tools was permitted for coursework. We would appreciate it if you could briefly describe: Which AI tools, if any, you used (e.g., ChatGPT, Claude, Copilot, Gemini, etc.); how frequently you used them (e.g., not at all, for some assignments, for most assignments, or for all assignments); and how you used them in your coursework (e.g., writing code, evaluating code, interpreting results).

In addition, are there any benefits of the seminar sessions (whether attended in person or online) that you feel could not have been provided by AI tools? Please provide a brief explanation. Thank you!
