## **Course leaders comments**

No comments from the teacher

## **Student representatives comments**

---

The evaluation handed in by half of the group is positive. Only the grading on the different questions were done so no comments were written.

After speaking with students I also receive a good feedback on the course. The general opinion is that the lecturer was educational and that the interactions between the lecturer and the students during class helped in the learning process.

The oral comments on the content of the course was also positive. Students feel that it is relevant and an interesting subject. It also gave ideas for the bachelor thesis.

No issues with the administrative part were brought up.
