Course leaders comments

These are the comments by the teachers.

We will focus on the criticism to assess weak aspects of the course and the intention is of course to try to mitigate or even eradicate these aspects.

The criticism boils down to:

Technical aspects, concerning the structure of the course homepage on Canvas, and how lectures are conducted on Zoom

Contents of the course: There are students who find that the environmental aspects of global food production and meat production and meat trade are missing.

We, i.e. the main teachers of the course will meet and discuss the criticism and the measures we intend to take in the end of August. Subsequently, we will then publish on the evaluation page how we will act in relation to the criticism and how we have argued concerning the measures to be taken.
