Answers: 4
Medel: 4,8
Median: 5

1: 0
2: 0
3: 0
4: 1
5: 3

No opinion: 0

12. Other comments

Course leaders comments

No comments from the teacher

Student representatives comments

1. In general, students are happy with the course and have positive experiences, however just one student has stated not satisfied and have communication issues with the instructor. The fact that the remaining students are comfortable and did not report any issue. This outcome may be the consequence of some individual opinions that cannot be generalized to all students.

2. The majority of students gave the affirmative response that they had the prior knowledge necessary to complete the independent project without any problems.

3. During the course, administration information has been causing uncertainty because some information about final submissions, publishing of thesis, and urkund submission was not clearly communicated to students, which led to several misunderstandings. Therefore, this could be modified in the future to improve communication of informations with students.

4. Throughout the course, there has been an excellent social learning atmosphere, and students are treated well and given good freedom to express their thoughts.

5. Students were able to meet supervisors at the university and were allowed to access library resources to work on thesis work, even if there wasn't much physical learning. because the final presentations and other introduction sessions were held only via Zoom.

6. The students have no issues about the course's structure of various sustainable development topics.

7. In general, students and their supervisor had excellent communication, and their inputs were enough to finish the thesis project.

8. Students were able to receive constructive feedback from their opponent. Responses to this question may vary depending on the opponent's and the supervisors' comments. The overall response is positive, although some people haven't satisfied well.

9. The majority of responses to oral presentations are positive, and students engage well with both their supervisor and opponent thereafter.

10. After finishing their thesis work, students have stated that their capacity to work independently has greatly improved.

According to general remarks about the course, students had a good experience overall, developed their ability to work independently, and did not express any negative feedback.
