Student representatives comments

This course was really appreciated by the students. Both assignments and field week was well planned and instructive regardless previous background in the subject. The mix of students from different countries and education gave the field trip a broader perspective and a good discussion climate. The assignments provided good knowledge for the field trip. The course had clear links to the learning objectives of the course. Communication between students and the course leader worked well, which was much appreciated (distance course). The field project was a good assignment, and a great way to present during the field week. There could be more lectures on zoom, especially on more difficult subjects e.g., genetics. Great teachers during the entire course!
