Student representatives comments

"I have nothing further to add" (2)

"Yes, I want to say again that the course contains a lot of useful information that is important for further professional activities. But the way it is presented and the assessment criteria are very harsh and create high expectations from the students, as well as putting a lot of pressure and stress.

It seems to me that the assignment for the group work was not specific enough, assuming more variability and flexibility than what was expected of us and was assessed in the end."

"Zoom meetings are not ideal for the group project"

"Some students wanted a more "clear" literature-list in time due to the audiobooks to be available"

"A more fixed schedule for the submissions, the different changes for submission-dates made it hard to plan one's time, even though it's good to be flexible this made it a bit hectic"

"The big group for the groupwork was not optimal, the perfect number of persons in a group should be three"

"The group-assignment could have needed more rules and direction. More directions would have made it easier to motivate the deviations and the crossroad-choices instead of figuring out everything for ourselves".

"The submissions needs to match the goal of the course and the rating criteria".

"The administration of the course needs more resources from the administrators of SLU, it's not meant to be that the course leaders should do everything themselves".
