Course leaders comments

Overall, we thought the course went well and we really enjoyed teaching it. The students were engaged and we had productive discussions. We also received positive feedback from the teachers. The SimBio lab activities were very popular.

Improvements:

- Term project
 - To better reflect the effort by students, we will make the term project worth more points to comprise a higher proportion of their course grade.
 - We will improve the instructions and grading criteria for the term project.
- Exam
 - We will dedicate more study time for the students to prepare for the exams.

- We will have oral exam practice.
- Lectures
 - We will work with teachers and excursion guides to reduce overlap with other courses.
- Discussions
 - We will better mediate discussions to ensure that all students have equal opportunity to contribute.
