### Course leaders comments

No comments from the teacher

### Student representatives comments

Very few people responded to the course evaluation, 3 out of 10 people responded.

Average opinions of the course war 3,3 out of 5. But overall 2 out of 11 questions were lower than 4 in average. 9 out of 11 were over 4 on average, meaning a high score.

But hard to draw conclusions due to a low answer frequency.

The group project was a larger part of the course than one could think before taking the course.
