Student representatives comments

Kursen var uppdelad i två olika delar, mejeri samt kött & fisk.

Mejeridelen var mer uppskattad av studenterna generellt vilket framkommer i kommentarerna i kursutvärderingen men också under muntliga diskussioner. Där mejeridelen har tydliga läromål, strukturerade handsout och bra instuderingsfrågor. Men några studenter kommenterar att vissa frågor under tentamen rättades strängt och att vissa frågor kunde misstolkas.

Medan kött & fiskdelen hade en föreläsare som hade låg kvalite på det språk som bör användas i en masterkurs. Handsouten innehöll för många slides kontra föreläsningstid och för mycket tabeller och fakta från olika studier som inte nödvändigtvis var relevanta för studenternas förståelse och lärande.

Under kursen fanns det en hel del övningar, många var uppskattade men flera studenter ifrågasätter hur laborationerna ska hjälpa stödja lärandet. Några studenter ansåg att det var för många seminarium, övningar och laborationer, vilket tog bort möjligheten att fördjupa sig inom kursen. En övning under köttdelen var högst oklar med alldeles för lite introduktion och läraren kunde inte svara på frågor eller förklara slutsatsen helt, studenterna uppskattade inte det momentet. Möjligen om man kan ha en bättre introduktion så förståelsen för uppgiften ökar.

Något som uppskattades väldigt mycket var studiebesöken samt instuderingsfrågorna och flera studenter tackar för en välgång kurs.
