## Course leaders comments

---

10 students answered the course evaluation and since 20 out of 33 students were active throughout the entire course this means 50% which must be considered quite ok for an online course. The students that answered the course evaluation seem happy with the course and this is also the impression I got from my interaction with the students during the course. The only slightly negative comments were about that the recorded lectures brought up the same thing as in the book chapters, but we have on purpose planned most lectures to be in that way in this course and there are a few additional lectures that cover topics outside the book. I plan to run the course in the same way next year since my impression is that it is working good.

## Student representatives comments

---

Generellt har studenterna bara bra saker att säga om kursen, men meningarna går ibland isär. Då vissa tycker att de inspelade föreläsningarna var mycket bra och hjälpsamma, anser andra att de var mycket dåliga och inte fyllde någon funktion. I övrigt i stort positiva kommentarer kring kurs, kursledare, medstudenter och kursmaterial.
