Course leaders comments

With only 1 response there is of course very little student feedback to base these comments on. I have additionally not received any personal communication to indicate particular opinions about how the course was organised and run. My impression is however that the course was unusually popular this year with 10 students taking it, and almost all completed it successfully and on time (1 remains to complete the assignment).

Personally I found it very fascinating to hear the student experiences across their quite varied internship locations and settings. They did really well to find these varied assignments which in many cases took them abroad. The organisations took very good care of them and in many cases allowed independent work assignments to be carried out within the internship setting. One clear improvement of the course would be for SLU to also offer a 30 hp course since many of the students on this course remains at their internship locations for the entire semester.
