Course leaders comments

The overall impression of the course is 4.3, reflecting that it is well appreciated. Students highlighted that the course is engaging and well-taught, though the level of difficulty varies and the progression is not always linear. Some found the content repetitive at times. We will therefore review the structure and order of lectures, seminars and exercises to support a clearer development throughout the course.

Regarding course information, students felt that although information was generally accessible, changes during the course created confusion. Some room and schedule adjustments were due to booking issues centrally, and updates were communicated from the teaching team as they arose. We will work toward more stable and consistent information management moving forward.

In relation to the examination, some students found it challenging to demonstrate their individual knowledge during

the oral assessment due to time constraints and shared presentation space within groups. We will refine the oral examination format and group setup to ensure all students have equal opportunity to show what they have learned.
